Renaissance Power and Gas has been a great company to work for. I have a lot of opportunity to make a high volume of sales with high return. I appreciate the fast, professional handling of my customers and commissions. The sales managers and staff are very helpful in their encouragement and guidance in getting customers closed to enroll. The residual commissions that I continue to receive monthly are great as well and add up. If someone is looking for work that is simple yet rewarding and has a lasting affect on their income, they should give Renaissance a try.

With high regards,

Masum Rahman
Marketing Director
